Just 1 Mile South of Swartz Creek

Greetings: To all friends and Glad fans and many thanks for all the orders and enquiries. Another year has rolled by and again every possible effort is being made to get this modest listing out to you before the holidays. No jobbers list will be issued.

A word about policy.— Let me reiterate. Needless ballyhoo, fantastic bombast or buncombe as to size or other attributes, tricky psychology and all kinds of high pressure selling methods are definitely OUT. It is my fixed intention to stick closely to plain facts; to make no use of expensive advertising frills, wasteful, of both your money and mine. To price originations within reason — with the realization that while each honest breeder feels sure that every one of his releases will find a place in the Glad Hall of Fame very, very few actually do. And lastly not to spend countless hours and all that it entails nurturing specimens to unnatural or rather unusual or extraordinary growth for the sole purpose of collecting a drawer full of blue ribbons in competition with the very people expected to purchase my stock.

IN THE FIELD LAST SEASON

Micharlotte again gave me great satisfaction here and exceptionally fine reports of its performance in Minnesota and elsewhere came in. Another seedling, Black Opal X Am. Commander was outstanding but am watching it for one more season. Also a row of Ivory Keys X Micharlotte blooming for the first time this year threw some very, very fine pinks as well as many crosses from 45. Big Top again had the largest blooms in the florist field. Every one who saw Phantom Beauty and Golden Arrow in bloom here was completely sold on these two. Spotlight, Supreme Beauty Paul Robeson, Mid America and Mrs. White were all very good while Patrician, Hiawatha and others planted in bulblets only, grew strong and gave good increase but were not allowed to bloom. Most of the rank and file commercials ran true to form, however Margurite, Big Top, Paradise (both standard and Yellow) and old Margaret Fulton really outdid themselves.

GUARANTEE

Stock guaranteed to be free from disease and insects at the time of shipment, thrifty and true to name.

Occasional errors are humanly possible, therefore, if any of the bulbs shall be found not as represented I will replace them, together with something extra to compensate for disappointments; or refund your money; BUT in no case will I be held responsible beyond the actual purchase price of the bulbs. Fine exhibition blooms are the result of a combination of superior heredity with perfect environment during growth; as I have no control over cultural treatment, fertility, climatic conditions, etc. No guarantee as to final results can be given however, great care has been taken to insure each bulb being clean, vigorous and true to name, ready under the proper conditions to produce for you some truly magnificent blossoms.

TERMS

Orders from \$1 to \$3, cash in full with the order, orders of \$3 and over, 25% with the order and the balance before shipment or shipment can be made C.O.D. if you prefer. Please do not order for less than \$1 as the sorting, packing and postage make such orders unprofitable. Extra counts in proportion to the earliness and the size of the order. As stock of most varieties is strictly limited, early ordering will insure better selections and avoid disappointments, and I will show my appreciation with more liberal overcount and often a bulb or two of the newer and more expensive sorts.

CULTURE

Do not plant Gladiolus too near buildings, trees or shrubbery. Plant larger size bulbs not less than 6 inches apart either in rows or in beds for maximum results, if in rows, the rows should be not less than eighteen inches apart. Plant six inches deep in light soils or three inches deep in heavy soils. The better the ground is prepared and the more plant food applied (preferably well rotted manure, cow manure if available) well mixed in, the fall before planting if possible, the finer your blooms will be, provided you cultivate frequently and plenty of water is forthcoming especially when they are spiking.

THRIPS

These tiny creatures will if once established, ruin your blooms no matter how well grown. Some people have grown Gladioli for years without being bothered by this pest, but they are simply fortunate. Don't take chances, start with clean bulbs, treat before planting and spray regularly during growth. If your bulbs are at all diseased, I recommend corrosive

sublimate treatment before planting in the spring, one ounce to seven gallons of warm water as a solution in which to soak the corms overnight.

Now about varieties. Remember it costs just as much time, money and labor to raise an out-dated, worthless variety as it does to raise a good one. Why not get rid of the worthless ones and get started with the better sorts, adding a few of the newer ones each year. Many of the older ones are still tops, but some are being replaced each year by better ones to keep your garden up to date, try as many new ones as you can find room and time for.

COLOR TRANSPARENCIES

We have some nice ones of Micharlotte and several coming seedlings also of Phantom Beauty, Golden Arrow and others, which we shall be glad to send to responsible interested parties for projection or viewing. They do show relative values better than can be done with any word description.

PRICE LIST

MICHARLOTTE (Tunias Triump X Picardy)—Light flame red with narrow frosted edge on petals, formal type, very large wide open flirets five to six open three showing color. A good rugged red that gives lots of bulblets. \$1.25 each. Bulblets 10c each., \$6 per 100.

Special offer for those who wish a quick start with this fine red: One extra bulb and eight plump bulblets for an additional \$1.25 making two bulbs that will throw top size spikes and eight bulblets for only \$2.50.

Do not be deceived by this price: Micharlotte will hold its own, in its color class, with any glad now on the market regardless of price. Mr. Loubbris of Massachusetts took two blues with it at Boston show, the only time it has been exhibited on the show bench. My stock does not run into thousands but several hundred, while they last go at these prices. Micharlotte can also be obtained from Mr. Gaston Loubbris., Wakefield, Mass., and from Mr. Milford Johnson, Dell Gardens, Canton, Minn.

SPECIAL SEEDLING OFFER

Due to a supply of one year seedlings greater than we can give proper attention we are offering bulbs averaging number fives from choice crosses such as Spotlight X Corona, Maid of Orleans X Mary Kathleen, etc., at 25c each or five for \$1. Some of these crosses were made at Dell Gardens and some here but they are all good, any one of them may hit the Jack Pot and there is nothing like this offered elsewhere, to my knowledge for anything even approaching this price. Par-
ante ges given.

SPECIAL BULBLET OFFER

Two Patrician bulblets, two Golden Arrow bulblets, two Phantom Beauty bulblets and ten Micharlotté bulblets, \$3.50.
Five Tunias Mahomet bulblets, five Paul Robeson bulblets, five Bengasi bulblets, three Oriental Pearl bulblets and five Micharlotté bulblets, \$2.25.

WILL QUOTE ON BULBLET ON REQUEST IF WE HAVE WHAT YOU WANT

IF YOU find my corms a superior product, please recommend them to your friends—
